

**Serving the International General Aviation Community
for Over 30 Years**

AeroLeasing, Inc.

We are Japan's leading independent aircraft leasing and sales company

ITC-AeroLeasing, Inc. was initially established to trade aircraft in 1985 as ITC-Aerospace, Inc., and sister company ITC-Leasing, Inc. was later created in 1989 to offer aircraft leasing solutions to our partners in the international General Aviation community. In 2016, ITC-Aerospace and ITC-Leasing merged to form ITC-AeroLeasing, Inc.

With our operating platform spanning over three decades, we offer aviation consultancy and project management, in addition to aircraft leasing, sales, auctions and investment services.

ITC has always focused on establishing long-term and mutually-beneficial partnerships with our clients. Our business is built on our strong work ethic, integrity and customer satisfaction. We aim to deliver consistent and reliable services to our partners in the General Aviation community.

ITC works with operators of diverse mission profiles, including:

- Air Ambulance
- Commuter
- Exploration
- Utility/Aerial Work
- Passenger/Cargo
- Offshore
- Survey

Why Choose ITC?

30+ Years of Proven Track Record

Our dedicated team of professionals, each with their own specific area of expertise in trading, investment, and asset management, have extensive experience working within the international General Aviation community, including large, well-established aircraft operators. We have successfully closed many hundreds of lease and sale transactions since inception of our company.

Focus on Clients

We have always been focused on establishing long-term partnerships with our clients by providing a flexible approach in structuring our financial and leasing solutions to match our clients' various operational and financial needs.

Flexibility and Diversity

Whilst our core services are aircraft leasing, sales and investment in government, commercial and private aircraft, we also provide aviation consultancy and project management services.

Unique Access to Japanese Capital

ITC's strong financial backing from an established and reliable group of Japanese financiers and investors allows ITC to offer attractive and flexible solutions to operators, capturing market areas not covered by other large leasing companies.

Our Activities and Services

Aircraft Leasing

Whilst we offer operating leases of our existing fleet and available inventory, we are also constantly seeking opportunities to grow our fleet by offering operators sale-and-lease-back options, as well as acquisitions of new or pre-owned aircraft at our customers' request.

Aircraft and Parts Sales/Auctions

We sell our own aircraft and spare parts, along with those owned by third parties. We specialize in selling some of the finest Japanese pre-owned aircraft, many of which are government owned. Japanese government aircraft are typically maintained to exceptionally high standards and are often available via exclusive closed auctions, of which ITC is a government approved bidder.

Consultancy and Project Management

We provide aviation consultancy and project management services. We have worked with major banks, national airlines, governments and worldwide industry experts on a variety of aviation consultation projects. ITC also provides a range of support services to our financiers and investors.

We manage a varied fleet of over 45 aircraft leased in more than 15 countries

Tapping a Unique Pool of Japanese Investors

ITC's Leasing Structure

ITC's engagement with Japanese investors and financiers allows us to provide attractive and flexible leasing opportunities to operators around the world.

Supported by private companies and high net worth individuals, ITC is uniquely positioned as a boutique lessor to capture market areas which are not fully covered by other large leasing companies. We constantly manage over US\$200 million in leased assets.

Tailored leasing solutions to meet your operational requirements

Turboprops

Single and twin-engine

Jets

Regional and business

Our Fleet

Our fleet of over 45 aircraft leased in more than 15 countries is comprised of fixed and rotary wing aircraft, including single and twin-engine turboprop powered aeroplanes, regional and business jets. Our helicopter fleet varies from light single and twin-engine, medium and heavy class aircraft.

In recent years, our leasing division has strategically focused on Emergency Medical Service (EMS) operations. However, ITC's highly experienced team can present tailored leasing options to meet most operational requirements and mission profiles.

Helicopters

Light single-engine, light, medium and heavy twin-engine
